- Theodore Roosevelt

Nomadic Encounters is the product of more than thirty years work in developing one of the most genuine cultural safari experiences in Africa and for three generations the Beaton and Looseyia families have worked in partnership.

We now offer three private bush homes and a tented camp which are booked on an exclusive basis. Located in the greater Masai Mara, each gives you flexibility and freedom to personally design your safari day by day.

The houses and camp are the perfect destinations for those wishing to have the comfort of absolute privacy and each one is fully catered and guided by some of the very best in Africa to make this a truly unique experience.

"The attention to detail, ambiance, setting and warm hospitality have surpassed our expectations."
